Efficacy and cost effectiveness of inhaled steroids in asthma in a developing country, 312  
Metered dose inhaler and nebuliser in acute asthma, 214  
Nitric oxide and asthma: *current topic*, 259  
Pollution: does it cause asthma? *annotation*, 377  
Prevalence of asthma and wheeze in the Highlands of Scotland: *correspondence*, 543  
Randomised trial spacer v nebuliser for acute asthma, 239
- Atlantoaxial instability**, Atlantoaxial instability in Down's syndrome: a five year follow up study, 115
- Atopic dermatitis**, Oxygen consumption during sleep in atopic dermatitis, 144
- Atopic sensitisation**, Risk factors for respiratory symptoms and atopic sensitisation in the Baltic area, 487
- Atrioventricular block**, Atrioventricular block during fetal heart rate decelerations, F51
- Audit**  
Audit of neonatal intensive care transport: *correspondence*, 98, F79  
EEG requests in paediatrics: an audit, 522  
Hearing assessment after meningitis and meningococcal disease, 441
- Autoimmune enteropathy**, Systemic vasculitis complicating infantile autoimmune enteropathy: *correspondence*, 467
- Auxology**, Disproportionate head growth retardation in cystic fibrosis, 150
- Babies' event related potentials (ERPs)**, BERPS: *Archivist*, 124
- Balloon dilatation**, Tracheobronchography and balloon dilatation in acquired neonatal tracheal stenosis, F3
- Behavioural phenotype**, Behavioural aspects and psychiatric findings in Noonan's syndrome, 153
- Behavioural response**, Can topical lignocaine reduce behavioural response to heel prick?, F49
- BERPS**, Babies' event related potentials: *Archivist*, 124
- Beta haemolytic streptococcus**, Perianal infection with beta haemolytic streptococcus: *correspondence*, 544
- Biliary atresia**, Earlier identification of biliary atresia and hepatobiliary disease: selective screening in the third week of life: *personal view*, 90
- Birth asphyxia**, Predictive value of early continuous amplitude integrated EEG recordings on outcome after severe birth asphyxia in full term infants, F34
- Blindness**, Childhood blindness due to vitamin A deficiency in India: regional variations, 330
- Blood pressure**  
Blood pressure, heart rate, and skin temperature in preterm infants: associations with periventricular haemorrhage, F162  
Maternal smoking and blood pressure in 7.5 to 8 year old offspring, 120
- Blood products**, Guidelines for the administration of blood products: *annotation*, 379
- Blood transfusion**  
Effect of blood transfusion on cardiorespiratory abnormalities in preterm infants, F194  
Reducing donor exposure in preterm infants requiring multiple blood transfusions, F29  
Visceral leishmaniasis after cardiac surgery, 235
- Bloodspot cortisol**, Bloodspot cortisol in mild asthma: the effect of inhaled corticosteroids, 321
- Body energy expenditure**, Temperature response to severe head injury and the effect on body energy expenditure and cerebral oxygen consumption, 507
- Body mass index centile charts**, Body mass index centile charts to assess fatness of British children, 38
- Bone density**, Improved prediction of bone mineral content and density, 147
- Bone marrow transplant**  
Late effects of total body irradiation: *annotation*, 382  
Paroxysmal nocturnal haemoglobinuria and Budd-Chiari syndrome, 241
- Bone mineral density**  
Mineral accretion in growing bones – a framework for the future? *current topic*, 177  
Renal transplantation and osteoporosis, 502
- Brain**  
Effect of diet on the fatty acid composition of the major phospholipids of infant cerebral cortex, 198  
Excitatory amino acids in neonatal brain: contributions to pathology and therapeutic strategies: *annotation*, F147
- Brain tumours**, Central nervous system tumours – lack of national studies: *correspondence*, 98
- Breast milk**  
Essential fatty acids in full term infants fed breast milk or formula, F23  
Presence of secretory IgA antibodies to an enteric bacterial pathogen in human milk and saliva, F102
- Bronchiolitis**  
Lung function, airway responsiveness, and respiratory symptoms before and after bronchiolitis, 16  
Trypsin and IgE concentrations in the respiratory tract of infants with acute bronchiolitis, 64

**Bronchoalveolar lavage**

Increase in interleukin-8 and soluble intercellular adhesion molecule-1 in bronchoalveolar lavage fluid from premature infants who develop chronic lung disease, F90

Tryptase and IgE concentrations in the respiratory tract of infants with acute bronchiolitis, 64

**Budd-Chiari syndrome, Paroxysmal nocturnal haemoglobinuria and Budd-Chiari syndrome, 241****Cancer**

Current lifestyle of young adults treated for cancer in childhood, 423

Dental caries, gingival health, and oral hygiene of long term survivors of paediatric malignant diseases, 129

Development of a measure to assess the perceived illness experience after treatment for cancer, 302

Investigation and management of *Clostridium difficile* colonisation in a paediatric oncology unit, 219

Morbidity using subcutaneous ports and efficacy of vancomycin flushing in cancer, 325

**Carbohydrate deficient glycoprotein syndrome, Carbohydrate deficient glycoprotein syndrome; multiple abnormalities and diagnostic delay, 445****Carbohydrate intolerance, Carbohydrate intolerance after rotavirus gastroenteritis: a rare problem in the 1990s: correspondence, 466****Cardiac function, Cardiac effects of growth hormone in short normal children: results after four years of treatment, 337****Cardiac surgery, Visceral leishmaniasis after cardiac surgery, 235****Cardiomyopathy, Cardiomyopathy in respiratory chain disorders, 223****Cardiorespiratory abnormalities, Effect of blood transfusion on cardiorespiratory abnormalities in preterm infants, F194****Cardiovascular malformations, Cardiovascular malformations in Turner's syndrome: correspondence, 543****Carrier state, Testing carrier status in siblings of patients with cystic fibrosis, 167****Catch-up growth, Catch-up growth in early treated patients with growth hormone deficiency, 427****Central line, Inferior vena cava thrombosis as a complication of femoral vein catheterisation, 343****Central nervous system, Central nervous system tumours - lack of national studies: correspondence, 98****Central venous catheter, Intra-abdominal extravasation complicating parenteral nutrition in infants, F207****Cerebral cortex, Effect of diet on the fatty acid composition of the major phospholipids of infant cerebral cortex, 198****Cerebral oxygen consumption, Temperature response to severe head injury and the effect on body energy expenditure and cerebral oxygen consumption, 507****Cerebral palsy**

Diagnosis and management of cerebral palsy: *current topic*, 350

Dr William Little (1810-1894) of London and cerebral palsy: *perinatal lessons from the past*, F209

**Chest drain, Neonatal chest drain insertion - an animal model, F123****Child health**

NHS information strategy and its impact on child health: *current topic*, 355

Use of registers in child health: *annotation*, 474

**Child health core curriculum, Assessing undergraduates' practical clinical skills, 161****Child pedestrian traffic safety, Child pedestrian traffic safety - do health beliefs influence behaviour? correspondence, 376****Childhood cancer, Current lifestyle of young adults treated for cancer in childhood, 423****Choking, Suffocation, choking, and strangulation in childhood in England and Wales: epidemiology and prevention, 6****Chromosome abnormality**

Aplasia cutis congenita with chromosome 12q abnormality, F205

Reviewing earlier diagnoses of chromosome: *correspondence*, 375

**Chronic lung disease**

Increase in interleukin-8 and soluble intercellular adhesion molecule-1 in bronchoalveolar lavage fluid from premature infants who develop chronic lung disease, F90

Prediction of chronic lung disease: *correspondence*, F80

Pulmonary hypertension in infants with chronic lung disease: non-invasive evaluation and short term effect of oxygen treatment, F14

**Clinical assessment, Clinical examination compared with anthropometry in evaluating nutritional status, 60****Clinical guidelines, Some reservations about clinical guidelines: controversy, 70****Clinical standards, Guidelines and clinical standards: correspondence, 275****Clinical trials, Clinical trials and neonatal intensive care: correspondence, F79*****Clostridium difficile*, Investigation and management of *Clostridium difficile* colonisation in a paediatric oncology unit, 219****Celiac disease**

Catch-up growth in early treated patients with growth hormone deficiency, 427

Genetic difference in HLA-DR phenotypes between celiac disease and transitory gluten intolerance, 29

**Colonic strictures, Colonic strictures in cystic fibrosis: correspondence, 191****Complement, Concentrations of main serum opsonins in early infancy, F172****Computer aided slide and poster production, Making your point: principles of visual design for computer aided slide and poster production, 80****Congenital heart disease**

Incidence of neurological complications of surgery for congenital heart disease, 418

Intellectual function and age of repair in cyanotic congenital heart disease, 298

**Congenital hypothyroidism, Congenital hypothyroidism: optimal management in the light of 15 years' experience of screening: personal practice, 85****Congenital laryngeal clefts, Familial occurrence of congenital laryngeal clefts: correspondence, 98****Congenital pneumonia, Congenital pneumonia due to *Mycoplasma pneumoniae*, F118****Continuous venovenous haemodialysis and infiltration, Volumetric control of continuous haemodialysis in multiple organ failure, 42****Cordocentesis, Preterm prelabour amniorrhexis: intrauterine infection and interval between membrane rupture and delivery, F43****Corticosteroids, Renal transplantation and osteoporosis, 502****Cortisol, Urinary excretion of cortisol after immunisation, 432****Cost, Cost savings from 'expert' direction of paediatric interfacility transports: correspondence, 466****Cost effectiveness, Efficacy and cost effectiveness of inhaled steroids in asthma in a developing country, 312****Cot death, Changes in deep body temperature before a cot death: correspondence, 97****CRIB, CRIB, son of Apgar, brother to APACHE: annotation, F81****Cross infection, Prevention of cross infection during outpatient spirometry, 156****Cryopreserved embryos, Outcome in children from cryopreserved embryos, 290****Curosurf, Randomised clinical trial of two treatment regimens of natural surfactant preparations in neonatal respiratory distress syndrome, F8****Cysteinyl leukotrienes, Increased generation of cysteinyl leukotrienes in Kawasaki disease, 526****Cystic fibrosis**

Colonic strictures in cystic fibrosis: *correspondence*, 191

Diminished concentrations of insulin-like growth factor I in cystic fibrosis, 494

Disproportionate head growth retardation in cystic fibrosis, 150

Liver disease in cystic fibrosis: *annotation*, 281

Nutritional management of the infant with cystic fibrosis: *current topic*, 452

Prevention of cross infection during outpatient spirometry, 156

Testing carrier status in siblings of patients with cystic fibrosis, 167
